

M CART

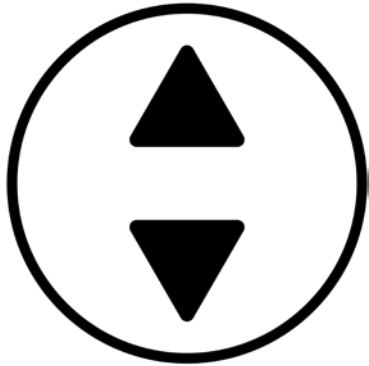

rethink space

01 acoustically effective
With its 12mm thick EchoBoard, M CART offers the solution for acoustically demanding environments.

02 sit-stand workplace

M CART works like an office chair, changing users can easily adjust the table top to their ergonomic needs. It is height adjustable with a gas lift from 700mm to 1115mm.

03

mobile

With the M CART you are mobile like with a bicycle.
You decide where the journey goes.

04 sustainable

The M CART can be easily dismantled into its components at the end of the life cycle and recycled.

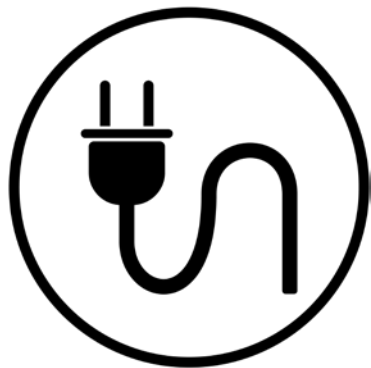

05 storage space

The M CART offers integrated, acoustically effective storage space on request.

06 power

The M CART is equipped with a power socket, 2 x USB chargers and a cable tray.

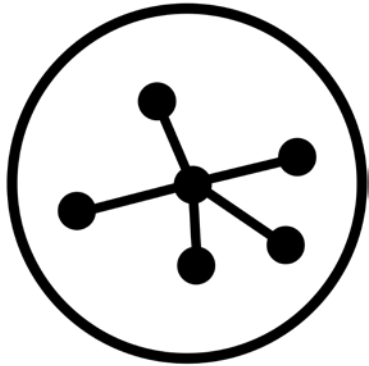

07 home & office

M CART is a product that creates a professional work environment in the office and at home:

- feel at home in the office
- work like a professional at home

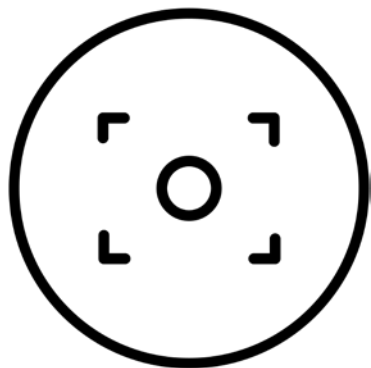

08 modular

The modular structure allows easy adaptation to changing needs. At the same time, the M CART can be used as a soloist or networked in a team.

09 focus room

The M CART supports concentrated work. It offers an acoustically effective focus room. The textile surfaces absorb particles floating in the air and thus reduce the viral load in the air we breathe.

raummeisterei
quality interior brand by BFH

The M CART combines the skills
from the areas of design and acoustics.
